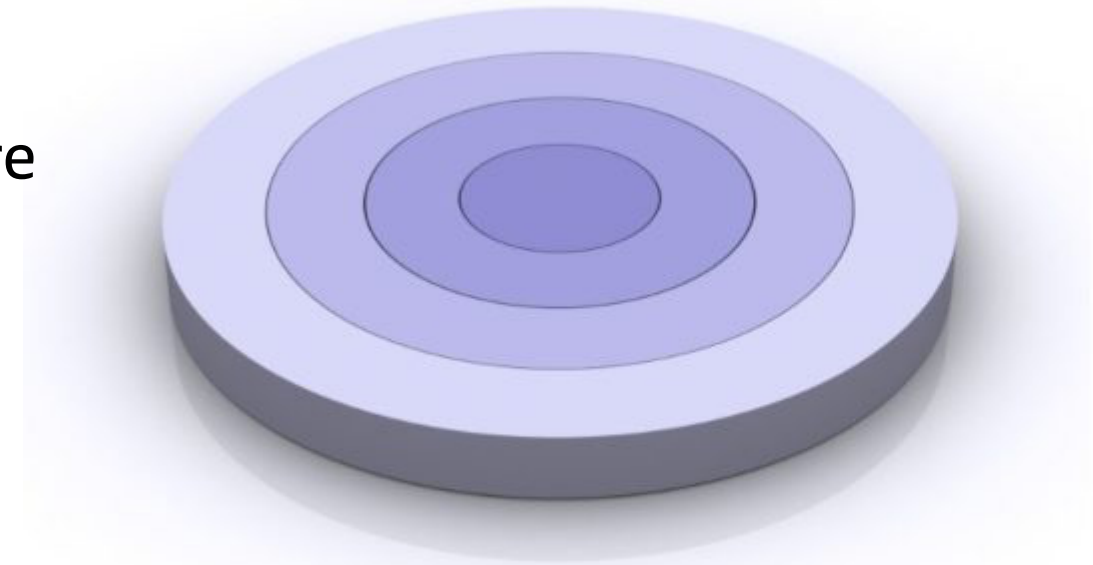
PARENTING IN A DIGITAL WORLD
HOW TO KEEP OUR KIDS SAFE ONLINE

Agenda

1. 4 Layers of Security
2. Discussing the rules for digital engagement
3. Reference Tools
4. Securing Networks
5. Securing Devices
6. Securing Applications

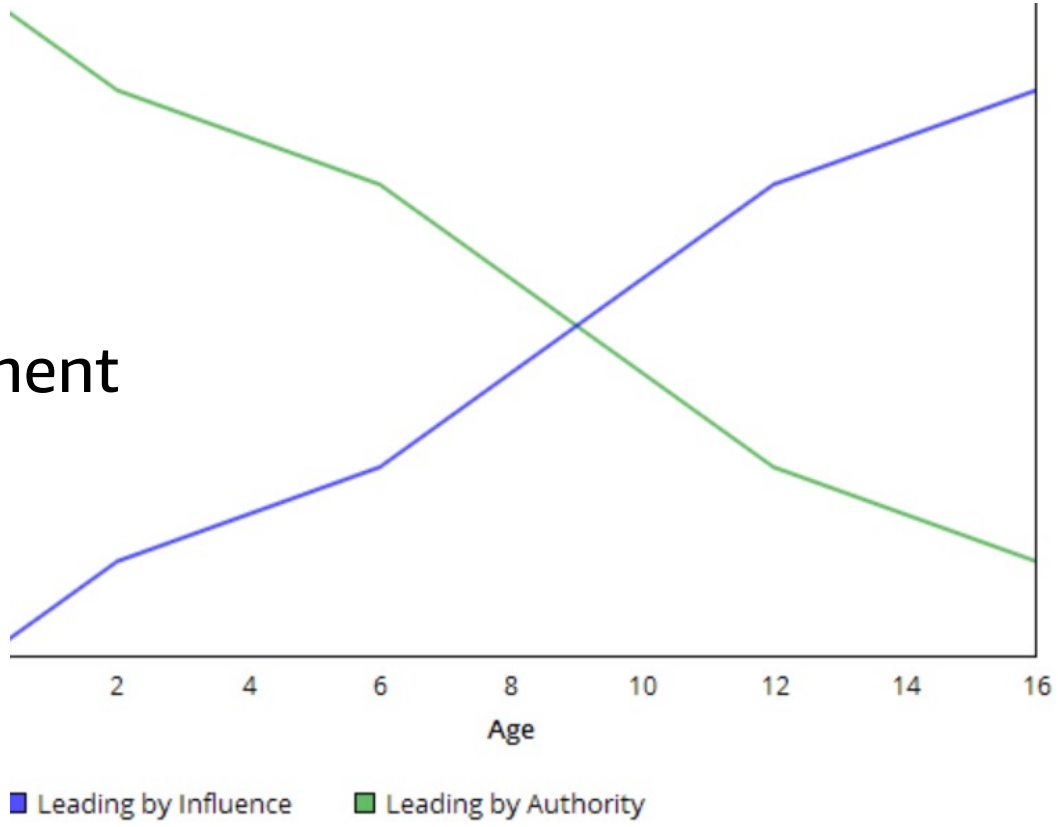
4 Layers of security

1. Family rules and Culture
2. Network
3. Device
4. Application

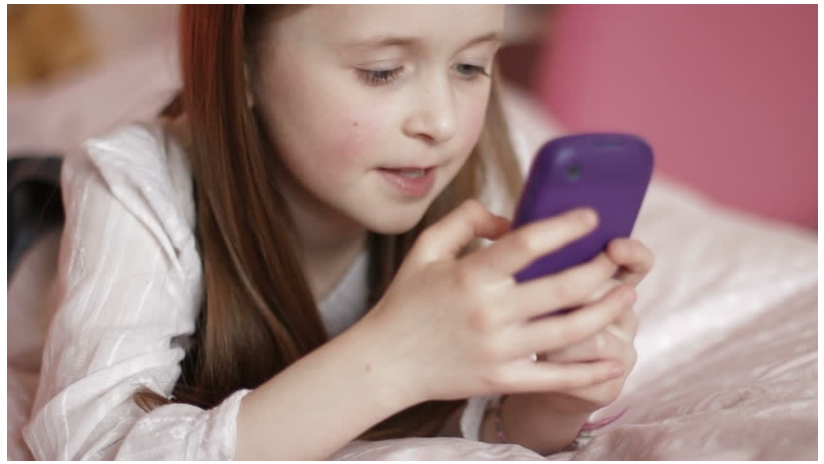


Starting the discussion:

1. Talk early and often.
2. Don’t hide/ignore hot topics.
3. Create an open, honest environment
4. Discuss the 4 layers of security
5. Learn together
6. Role playing



Document the rules



1. Screen Visibility (closed doors)
2. Create password guidelines
3. Set time limits
4. Parents are friends on Social Networks
5. Don’t share location information
6. Don’t create usernames that will identify location or personal information
7. Never share user accounts/profiles
8. Don’t talk about problems at home online with friends
9. Share incidents with parents

Screen Time
On your iPhone, iPad, or iPod touch, go to Settings > Screen Time.
Tap Turn On Screen Time.
Tap Continue.
Select This is My [device] or This is My Child's [device].
You can now get a report about how you use your device, apps, and websites, any time you want.

If it's your child's device, you can set up Screen Time and create settings right on their device or you can use Family Sharing to configure your child's device from your own device. After you set up your child's device, you can also use Family Sharing to view reports and adjust settings any time, right from your own device.

With Screen Time you can also create a dedicated passcode to secure settings, so only you can extend time or make changes.
